

ANIVERSARIO

ENTRENARANJOS
INTERNATIONAL SCHOOL

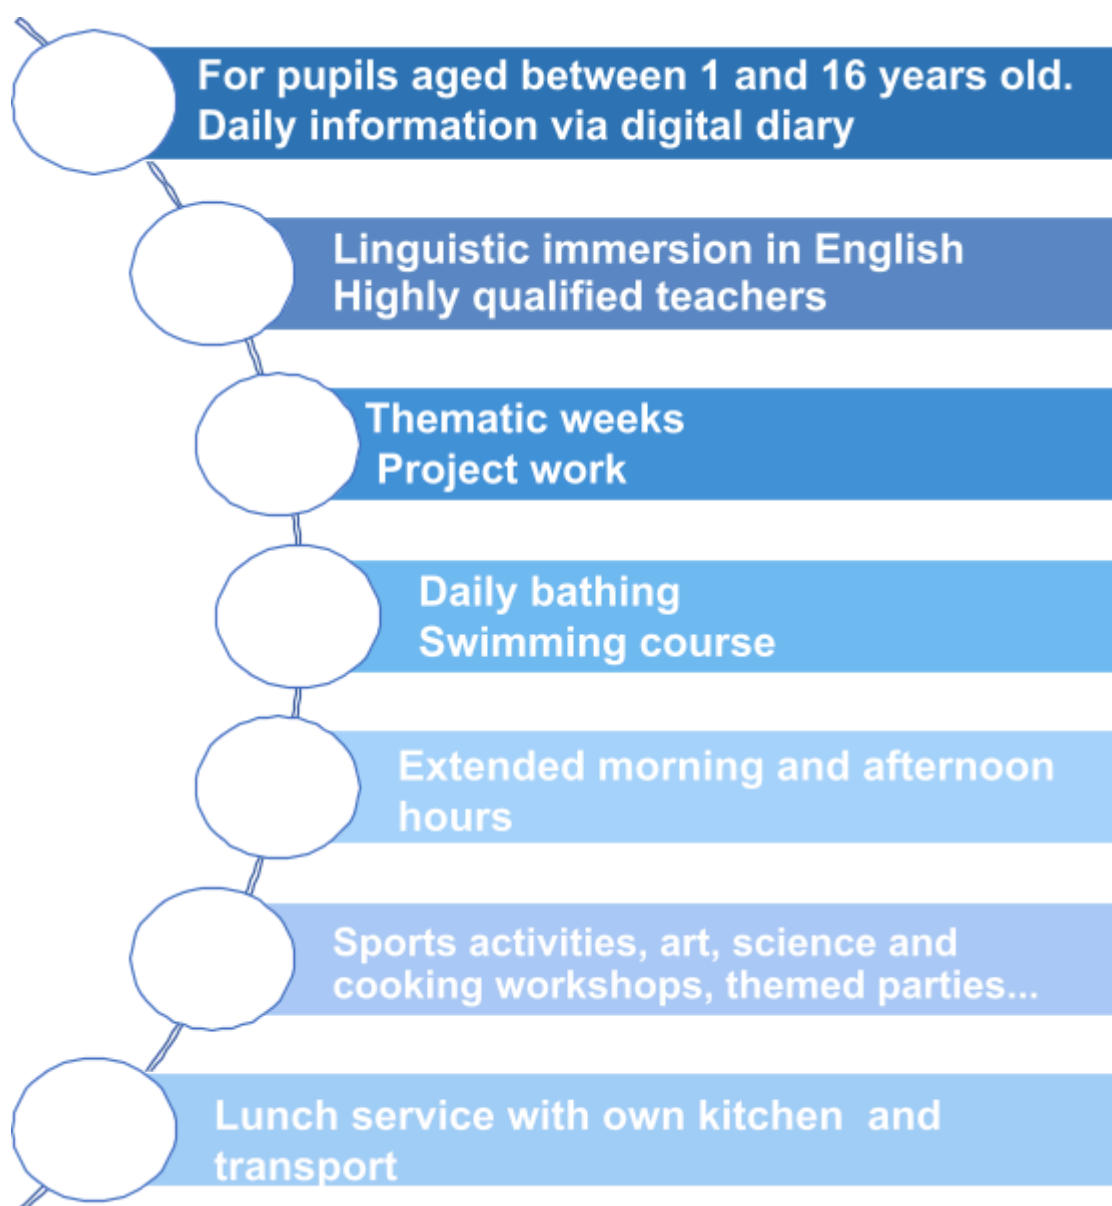

Summer school 2025

¡An amazing opportunity!

Entrenaranjos International School offers for July a summer educational programme of linguistic immersion in English, combining multiple learning and leisure activities for the students of the school and for students from outside of the center.

The natural environment and the friendly and familiar treatment of all the school staff, create an ideal environment for your sons and daughters to have fun and enjoy doing all the activities of the summer course while they are developing their linguistic competence in English.

Activities and Metodology

Our summer programme is remarkable for dynamism and action.

The aim is to motivate students to be active and to be protagonists of their own learning. We are committed to learning through enjoyment and we invite children to participate and enjoy many of the activities and experiences offered by Entrenaranjos Summer School.

All the members of the teaching staff are bilingual, highly qualified, with a great capacity to make the classes dynamic and very involved in the project.

Each week of the Summer School has a **thematic assigned** to it and, based on this theme, the globalized work project is developed with various activities and workshops. The day is divided into sessions of approximately 45 minutes, which allows us to develop many different activities throughout the day.

Each day, in the first session of the morning, sports activities and outdoor games are carried out, taking advantage of the fact that the outside temperature is not very high. We also dedicate a daily session to summer homework, revision and reinforcement books, reading...

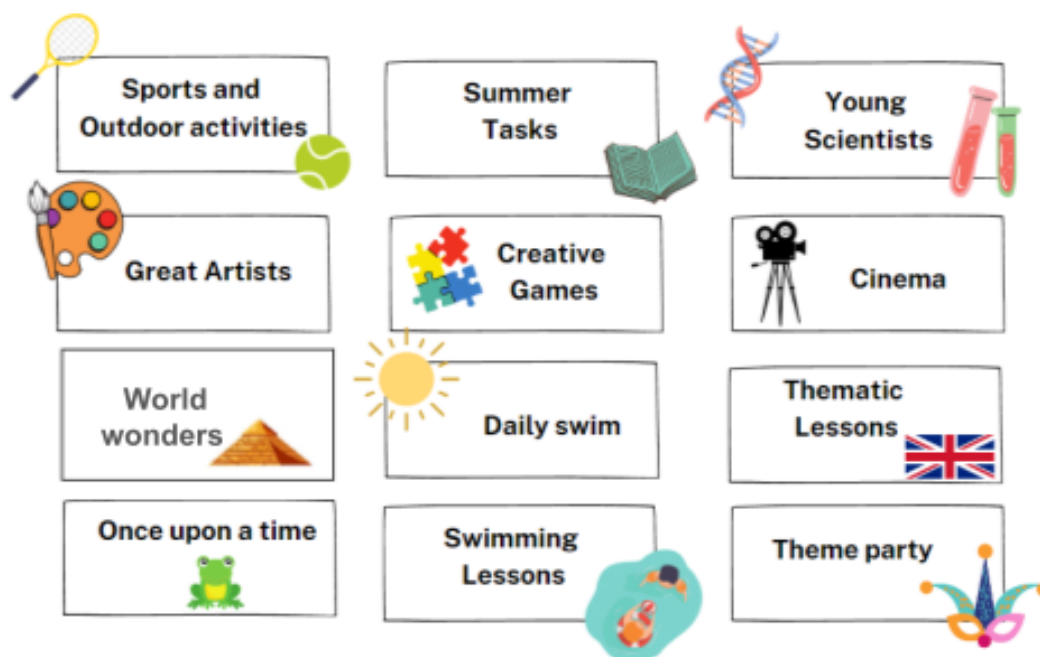

Furthermore, throughout the week, we will have fun with music sessions, science and art workshops, film sessions, thematic English classes and sensory workshops for the little ones.

Students enrolled in the summer course can enrich the programme of activities, on a voluntary basis and free of charge, with dance classes, Chinese and our traditional Top Chef.

And of course...

We will swim every day in the swimming pool!!!

The contents, the course activities and the different workshops are adapted to the age groups in order to encourage participation, personal autonomy and to favour the integral development of the children.

All activities will be conducted in English, except for the reinforcement of basic language and math skills and the 'Homework' sessions.

THEMATIC DOSSIER
AND WORKSHOP
MATERIALS INCLUDED

Facilities

- > Classrooms with large windows that provide natural light and ensure proper ventilation
- > Air conditioning in all classrooms
- > Courtyards differentiated by age
- > Swimming pool in the nursery school building.
- > Swimming pool in the Primary/Secondary building
- > Football pitches, basketball courts, sandboxes.
- > Indoor sports hall.
- > Pine forest with picnic area.
- > Dining rooms differentiated by stages.

Use of swimming pools

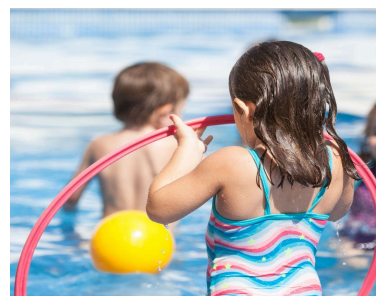

Bath time is one of the most awaited and enjoyed moments of the day by the children.

The center has two swimming pools: one in the Infant Education building (very shallow) and the other in the Primary Education building. Both pools are located in enclosed areas with security systems to control children's access.

As a safety measure, the use of the pool is done in shifts without mixing groups. Each group/class has its daily time specified in the weekly timetable, guaranteeing a reduced number of children in the pool. **All pool shifts are supervised by several teachers and specialist staff.**

As an extra service, the center offers an **Intensive Swimming Course**, with a daily class, for pupils who want to learn to swim or improve their technique. The playful nature of the classes helps the children to become familiar with the environment and to enjoy themselves while they learn to swim. The main aspects worked on in the swimming course are:

- > Familiarisation with the aquatic environment and enjoyment of the sessions.
- > Breathing
- > Floating
- > Propulsion and movement with and without equipment
- > Jumps

At the end of the swimming course, **the family receives a report on the child's progress.**

Spanish Intensive Course for International Students

The school offers **international students** the possibility of taking an intensive Spanish course during the Summer School to help them in their progress in learning the Spanish language. The dates of the course are detailed in the fees appendix.

The course will take place with a daily session of **45 minutes** in the midday timetable. The practical and dynamic nature of the classes will help students to internalise the new language by creating many communication and learning situations.

GLOBAL SCHOOL

Spanish Intensive Course for International Students

In addition to the daily time devoted to **summer homework and / or reinforcement workbooks**, the school offers an intensive course in language skills in Spanish and mathematics. The dates of the course are detailed in the appendix of fees.

The course is aimed at Infant, Primary and ESO pupils and will take place in a daily session of **45 minutes** at midday.

In the case of Infant School children, intensive reinforcement of reading, writing, arithmetic and mathematical concepts will be carried out.

In the case of Primary and Secondary students, a review of the contents of the subjects Spanish Language and Mathematics will be carried out, taking into account the educational level to which each student belongs.

Dance Workshop

The center offers a free dance workshop for Infant, Primary and Secondary school pupils who wish to do so, where they can practice fun choreographies.

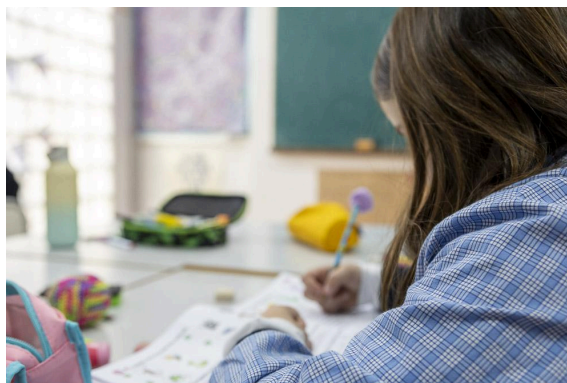

The dance workshop will take place in **two 45-minute sessions per week (one session in the morning and one session at midday)**. It is recommended to wear sportswear and comfortable shoes to allow freedom of movement and avoid injuries.

Chinese Workshop

The Chinese workshop is another of the extra activities that the pupils can enjoy. With dynamic and fun activities the children will have a first contact with the language and the characters of this language.

The course is aimed at pupils in Infant, Primary and Secondary Education and will take place in two **45-minute sessions per week (one session in the morning and one session at midday)**.

ACTIVITY MATERIAL
INCLUDED

Top Chef

In the Top Chef workshop, pupils will enjoy cooking classes led by the center's chefs, in which they will learn not only delicious recipes but also tips on healthy eating and healthy habits. The price of the activity is detailed in the price list.

The Top Chef activity will take place in a weekly session at lunchtime.

ACTIVITY MATERIAL
INCLUDED

Dining room

Many learning processes take place at mealtimes that will mark the child's development. The contact with new flavours and textures, the broadening of tastes and preferences and the strengthening of healthy habits and good habits will help children to grow up healthy and develop healthy lifestyles.

The center has a school canteen service with its own kitchen.

The food department prepares balanced and healthy menus in accordance with the nutritional needs of the pupils at each stage (differentiated menus for each stage), with the possibility of adapting them in special cases (intolerances, allergies, special diets...).

In addition, in order to bring pupils closer to other cultures and get to know their gastronomy, during the summer course there are international days with typical menus from other countries.

The children are always supervised and cared for by the teachers during dining time. The pupils in the 1st cycle have a space for **napping** after lunch.

Transport

To facilitate access to the center, we have a transport service with several routes that can be adapted to each family's needs.

The team of bus monitors is made up of staff from the center.

All vehicles are equipped with the relevant safety measures, including seat belts installed in each seat.

Have fun in English at our Summer School!

WE ARE WAITING FOR YOU!!!
