

ENTRENARANJOS
INTERNATIONAL SCHOOL

Summer School 2023

Entrenaranjos International School offers a summer educational program of linguistic immersion in English in July, combining multiple learning and leisure activities for the students of the school and for students outside the school.

The natural surroundings and the close and familiar treatment of all the staff of the school, create an ideal environment for your children to have fun and enjoy all the activities of the summer course while they evolve in their linguistic competence in English.

Dates and Timetables

Activities and Methodology

Our summer program stands out by its **dynamic and active methodology**.

Our goal is to motivate students to be active and protagonists of their own learning. We are committed to learning for enjoyment and we invite children to participate and enjoy the many activities and experiences that Entrenaranjos Summer School offers.

All the members of the teaching team are bilingual, highly qualified, with great capacity to energise the classes and very involved in the project.

Each week of the Summer School has an **assigned theme** and, based on it, the globalised work project is developed with various activities and workshops. The day is divided into sessions of approximately 45 minutes, which allows us to develop many different activities throughout the day.

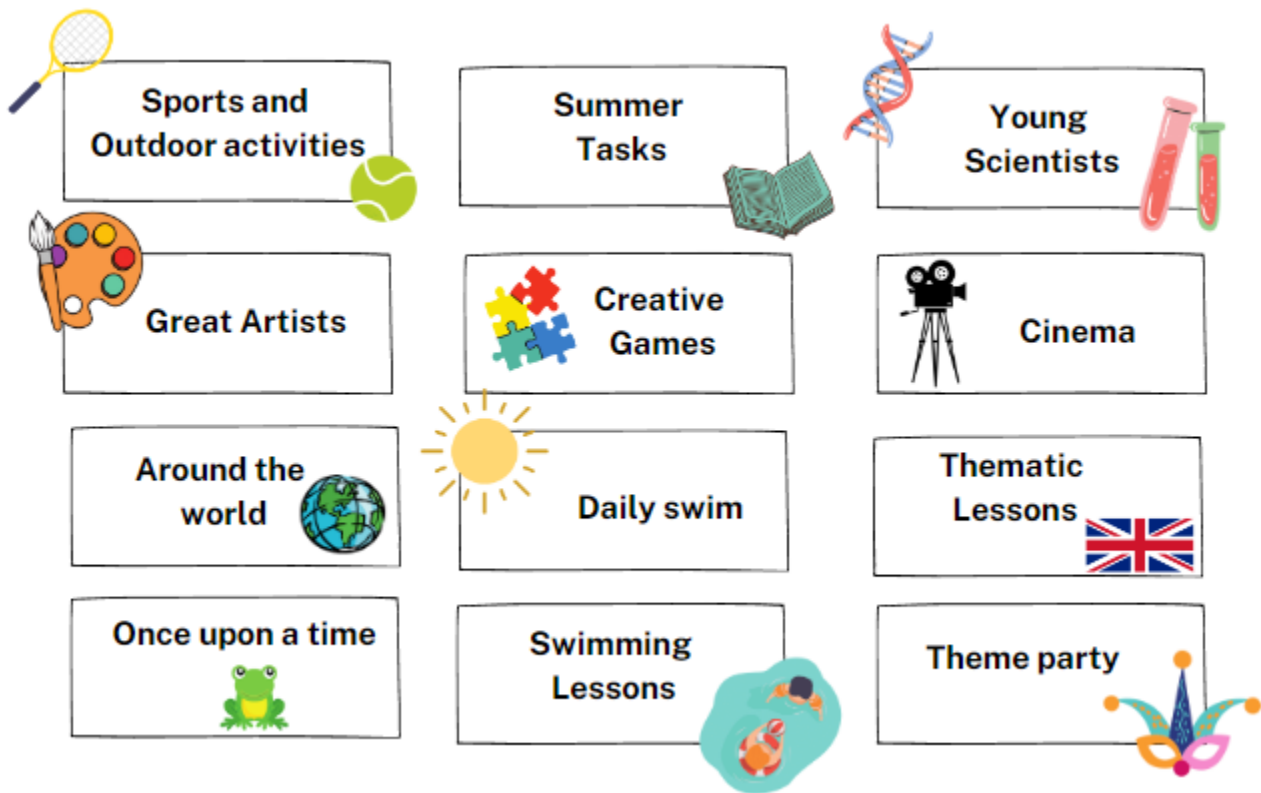

Every day, in the first morning session, sports activities and games are carried out outdoors, taking advantage of the fact that the ambient temperature outside is not very high. We also dedicate a daily session to carry out summer homework, review and reinforcement notebooks, reading ...

In addition, throughout the week, we will have fun with sessions dedicated to music, science and art workshops, film sessions, themed English classes, discovery of other countries and cultures, sensory workshops for the little ones and our traditional Top Chef.

And of course...

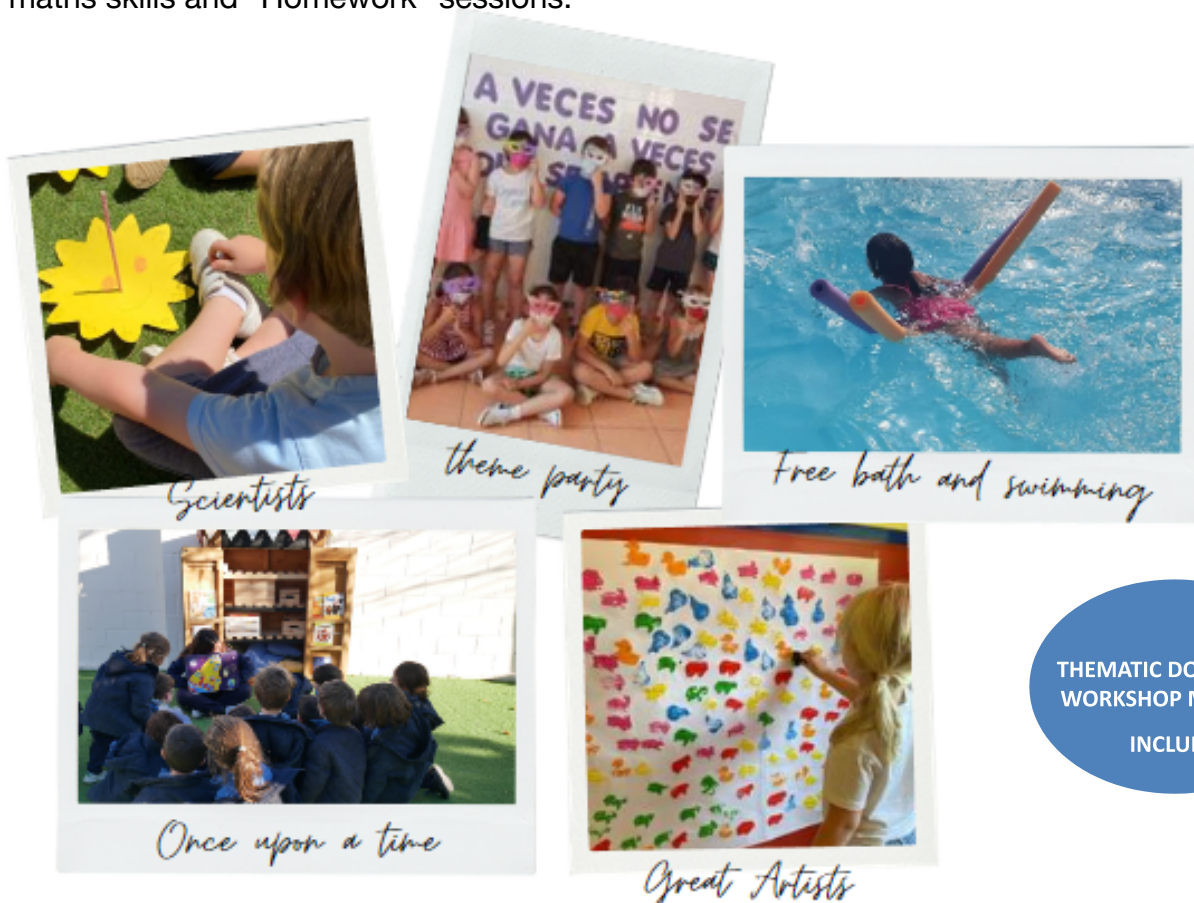

!!!We will swim every day in our pool!!!

The contents, the activities of the course and the different workshops are adapted to the age of the groups to promote participation, personal autonomy and favour the integral development of the children

All activities will be carried out in English, except for the reinforcement of basic language and maths skills and "Homework" sessions.

THEMATIC DOSSIER AND
WORKSHOP MATERIALS
INCLUDED

Facilities

- > Classrooms with large windows that provide natural lighting and guarantee proper ventilation.
- > Air conditioning in all classrooms.
- > Playgrounds differentiated by age.
- > Swimming pool in the pre-school building.
- > Swimming pool in the primary / secondary building
- > Football pitch, basketball court and sandpit.
- > Indoor sports hall.
- > Pine forest with picnic area.
- > Lunch halls differentiated by stages

Use of swimming pools

Swimming time is one of the most anticipated and enjoyed times of the day by children.

The school has two swimming pools: one in the Early Years Education building (with very little depth) and another in the Primary Education building. Both pools are located in closed areas with security systems to control the access of minors.

As a security measure, the use of the pool is carried in turns without mixing groups. Each group/class has its daily time specified in the weekly schedule, guaranteeing the reduced number of children in the pool. **All pool shifts are supervised by various teachers and specialised staff.**

As an extra service, the centre offers an **Intensive Swimming Course**, with a daily class, for students who want to learn to swim or improve their technique. The playful nature of the classes helps children become familiar with the environment and to enjoy learning to swim.

The main aspects worked on in the swimming course are:

- > Familiarization with the aquatic environment and enjoyment of the sessions.
- > The breathing technique
- > Flotation
- > Propulsion and displacements with and without material
- > Jumping technique

At the end of the swimming course, **the family receives a report on the child's progress.**

Intensive Spanish course for international students

The centre offers **international students** the possibility of taking an intensive Spanish course during the Summer School to help them progress in learning the Spanish language. The course dates are detailed in the fee document.

The course will be developed with a daily session of **45 minutes** at noon. The practical and dynamic nature of the classes will help students internalise the new language by creating many communication and learning situations.

GLOBAL SCHOOL

ACTIVITIES DOSSIER
INCLUDED

Intensive course to reinforce linguistic and mathematical skills

In addition to the daily time devoted to carrying out summer homework and/or reinforcement notebooks, the centre offers an intensive course on language skills in Spanish and mathematics. The course dates are detailed in the fees documents.

The course is aimed at students of Preschool, Primary and Secondary stage and will be held with a daily session of **45 minutes** at midday.

In the case of the children of Preschool there will be an intensive reinforcement of literacy, calculation and mathematical concepts.

In the case of Primary and Secondary students, there will be a review of the contents of the subjects of Spanish Language and Mathematics, taking into account the educational level to which each student belongs.

ACTIVITY
DOSSIER
INCLUDED

Dance Workshop

For the students of Preschool, Primary and Secondary stage who wish to participate, the centre offers a dance workshop where they will practise fun choreographies. The dates of the dance workshop are detailed in the fee schedule.

The dance workshop will take place in two weekly sessions of 45 minutes at midday. It is recommended to wear sportswear and comfortable shoes to promote freedom of movement and avoid injuries

Chinese Language Workshop

The Chinese language workshop is another of the extra activities that students can enjoy. With dynamic and fun activities the children will get in touch with the language and the characters of that language. The course dates are detailed in the fees documents.

The course is aimed at students of Preschool, Primary and Secondary stage and will be held with two weekly sessions of 45 minutes at midday.

DE ACTIVIDADES
INCLUIDO

Top Chef

In the Top Chef workshop, students will enjoy cooking classes led by the centre's chefs, in which they will learn, in addition to delicious culinary recipes, tips on eating and healthy habits.

The Top Chef activity will take place in two weekly sessions at midday. The course dates are detailed in the fee schedule.

MATERIAL AND
ACTIVITY DOSSIER
INCLUDED

Lunch service

At mealtime, many lessons that will mark the development of the child are learned. Contact with new flavours and textures, expanding tastes and preferences, and strengthening healthy habits and good customs will help children grow up healthy and develop healthy lifestyles.

The centre offers lunch service with its own kitchen, where the food is cooked daily.

The food department prepares balanced and healthy menus in accordance with the nutritional needs of the students at each stage (differentiated menus by stages), with the possibility of adapting them in special cases (intolerances, allergies, special diets...).

In addition, in order to bring students from other cultures closer and get to know their gastronomy, during the summer course there are international days with typical menus from other countries.

Students are always supervised and taken care of by the teaching staff at all times. The students of the 1st cycle of preschool have a specific room and time slot enabled for a nap once the meal is over.

Transport

To ease the access to the centre, we have a bus transport service with several routes, which we adapt to the needs of each family.

The team of bus teachers is made up of staff from the centre.

All vehicles have the relevant security measures, including seat belts installed in each seat.
